

Making Education Materials with Live Switching

Foresight Inc.
<http://www.foresight.jp/>

Introduction

Foresight Inc. provides education materials and seminars for various qualifications. Our students will obtain necessary knowledge to pass qualification exams and manners to work as professionals.

images from cameras. The output is directly recorded by HD editing system. Education material is made on it.

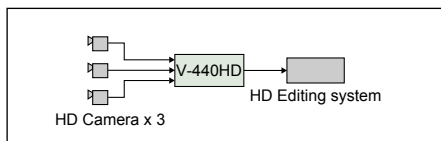

Point of selection

We researched various HD editing systems and found all those were very time consuming. We found that live switching and real-time recording of output from mixer is fastest. We recently checked its Chroma Key function and found the quality is good enough without precise adjustment of lighting, just with blue screen. We will try to make materials with Chroma Key.

Installed Equipment

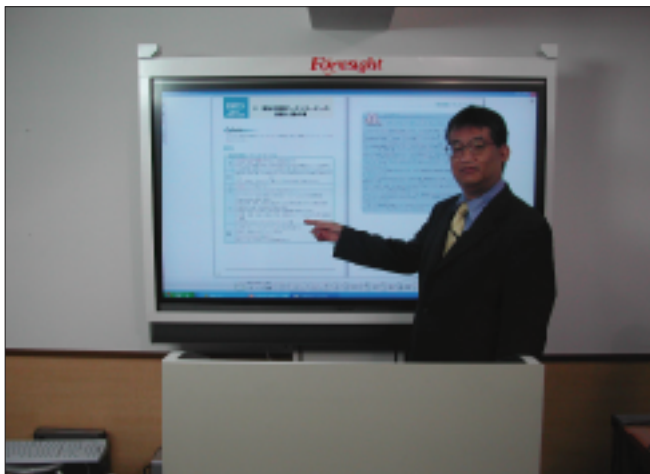

Multi Format Video Mixer	V-440HD
--------------------------	---------

System Integration

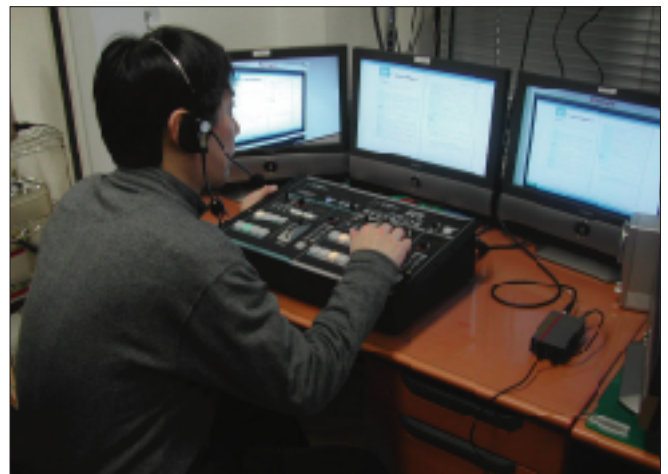

System

Lecturer carry out the seminars in front of electric white board. HD cameras x 3 to shoot the image V-440 HD switches the
