Installed Equipment

Audio Recorder

AR-200

▲Hotel Seamore

Introduction

Shirahama Hot Springs, located in Wakayama Pref is know as Japanese oldest hot springs resort. At the center of Shirahama, our Hotel Seamore is located. Large bathes to let our guests mostly relaxed. We have 164 guest rooms and 16 banquets for various services. In addition, we have sanset/sunrise halls and large pools for entertainment.

▲AR-200

System

We use Ar-200 as audio player for BGM playback at entrance, restaurants and banquets. Sound from AR makes our guests relaxed in any location of our hotel. It is operated manually by our staffs because of its easy operation.

Point of selection

We previously used tape media but faced many troubles. We don't need to do maintenance on AR. We have used AR series in passed 10 years but have faced no trouble. Because our hotel is located along side of the ocean, we need to care about damage by sea water/salty air on many machineries. But no care is necessary on AR series.
